- Date 05/24/2021

We do not currently have a policy for utilizing MSCI or MILS courses as part of the Additional Institutional Requirements for EGSC. Doing so would help move our students closer to degree completion and help with co-enrollment with GSU and AU.

We do have a Military Credit policy that is active and awards credits in various areas (<http://www.ega.edu/policy/04-military-credit-procedure.pdf>) but it is for ACE credit via military experience and JST vs. co-enrollment and it places these courses in Area F as opposed to Additional Institutional Requirements.

Our current catalog provides this information:

Associate of Arts and Associate of Science Programs: Associate of Arts and Associate of Science degree programs are programs with disciplinary distinction which provide the two years of course work in a discipline area. These degree programs may also be used as the first two years of course work toward the completion of a baccalaureate degree at a four-year institution. The programs with disciplinary distinction lead to the Associate of Arts (A.A.) or Associate of Science (A.S.) degree. Students in these degree programs follow the Core Curriculum established by the Board of Regents of the University System of Georgia. The Core Curriculum is designed to facilitate the transfer of credit among the schools within the University System. The Core consists of 42 hours. There is an additional Area F requirement of 18- 21 hours in the student's chosen area of study.

Area A	9 hours in Basic Skills (English and Mathematics)
Area B	4 hours of Institutional Option Courses
Area C	6 hours of Humanities and Fine Arts
Area D	11 hours Science, Mathematics and Technology
Area E	12 hours Social Sciences

In order for a student to complete all requirements for the Associate of Arts or Associate of Science degree at EGSC, students must complete an additional 4 hours consisting of: 2-hour Health Course AND (2) 1-hour physical activity courses or a 1-hour physical activity course and a 1-hour First Aid Course

Under the new policy, this statement would be added to the end of the above policy which is currently in the catalog:

MILS or MSCI courses may be substituted for the Additional Institutional Requirement of physical activity courses on a one-for-one basis up to the maximum of two credit hours. Only one (1) hour for each military science course taken will be credited toward the Additional Institutional Requirement for physical activity courses. Students presenting evidence of at least one year of active duty or completion of basic military training in any branch of the armed forces of the United States will be awarded 2 hours of institutional credit for health and physical education. The two hours for health will be waived. Service members may request copies of their Joint Services Transcripts (JST) at jst.doded.mil

Currently, these MILS and MSCJ credits, even for the ones listed below from our catalog, end up listed as "Fallthrough Courses" for our students in DegreeWorks and do not forward their progress towards graduation. See the example below.

MSCJ 1111 Introduction to Military Science
0-2-1 *Co-requisite: MSCJ 1510*

Instruction provides the basics of the U.S. Army and its role in National Defense. Includes the following subjects: the roles of the U.S. Army in national defense, organization and branches of the U.S. Army and its role, customs and traditions of the service, military writing, implementing a personal physical fitness program, role of the ARNG and USAR, and roles of the commissioned and non-commissioned officer.

MSCJ 1510 Mountaineering
0-2-1 *Co-requisite: MSCJ 1111*

A course designed to introduce mountaineering skills, fundamentals, and knowledge.

MSCJ 1122 Basic Military Leadership
2-0-2

Continues the development of critical military skills, leadership, and management techniques. Provides basic leadership techniques and principles, professional ethics and senior subordinate relationships. Skills development includes instruction in basic marksmanship techniques including safety procedures and firing Army small arms weaponry. One weekend field trip is required.

MSCJ 2121 Basic Military Skills
2-0-2 *Prerequisite: MSCJ 1122*

Instruction and practical exercises covering basic skills necessary as a future leader in the U.S. Army. Includes the following subjects: land navigation and map reading, basic first aid, survival and communications.

MSCJ 2122 Basic Military Tactics
2-0-2 *Prerequisite: MSCJ 1122*

Introduces students to the fundamentals of Army leadership and management techniques. Focus is placed on the mission, organization and composition of small unit teams, principles of offensive operations stressing firepower, movement, communications techniques and introduction to troop leading procedures.
